

WatchGuard Bundled Solutions

For WatchGuard® XTM 1050, XTM 8 Series, and Firebox® X e-Series appliances

One package, one license, one great price.

WatchGuard® makes it easy and affordable for businesses to get complete threat management in one convenient package. An exceptional value, each package provides:

- ✓ Application Layer Firewall
- ✓ Anti-spyware
- ✓ URL filtering
- ✓ Intrusion prevention
- ✓ Integrated SSL VPN
- ✓ Spam blocking
- ✓ Anti-virus
- ✓ Support and maintenance

Let the Bundle Simplify Your Life

From initial purchase and setup through ongoing security management, the Bundle makes network security management easier and more efficient. Getting everything you need in one package means:

- No need to handle multiple POs, multiple policies, multiple configurations, or work with multiple vendors
- One license key turns on the firewall and all security subscriptions
- One support contract covers all aspects of your network security profile

Included in the Bundle:

Security Appliance†

Choose a WatchGuard® XTM 1050, XTM 8 Series, or Firebox® X e-Series appliance. Find the model that's right for you by visiting <http://www.watchguard.com/compare>.

LiveSecurity Service*

Provides 24/7 technical support with targeted four-hour response time, hardware warranty with advance hardware replacement, software updates, and up-to-the-minute security alerts.

spamBlocker*

Blocks unwanted email and the viral payloads it carries with near 100% accuracy. Recognizes spam regardless of the language, format, or content of the message – even image-based spam.

WebBlocker*

Stops HTTP and HTTPS access to dangerous and inappropriate web content in the workplace to increase productivity and decrease network security risks.

Gateway AntiVirus*

Provides powerful signature-based protection at the gateway from known malware. Dynamic heuristic analysis uses code emulation to identify polymorphic viruses and dangerous code that signatures can't catch.

Intrusion Prevention Service*

Blocks attacks that comply with standard protocols but carry malicious content, including buffer overflows, SQL injections, instant messaging, and P2P usage.

*One-year, two-year, and three-year subscription packages are available

Purchase one Bundle and get the works. That's it – no additional licenses, fees, support contracts, or hardware purchases. It's the easiest way to have powerful extensible threat management protecting your network from malicious threats. **Call your reseller today for more information or visit www.watchguard.com/bundle.**

†WatchGuard XTM appliance is included with the purchase of a WatchGuard **Security Bundle**

Firebox X e-Series appliance is included with the purchase of a WatchGuard **UTM Bundle**
